

Forklift Range

Compact, powerful and versatile

EUROPEAN MANUFACTURER

Robustness, safety and versatility

AUSA all-terrain forklifts are exceptionally **compact, powerful and versatile**. Their reduced size and small turning radius give them excellent manoeuvrability on the toughest and steepest terrains. Add to this their exceptional capacity to move a large volume of very heavy loads and we can safely say that these are highly versatile vehicles that provide outstanding performance when moving goods.

Equipped with state-of-the-art engines, they offer professionals a product that achieves an unequalled balance between engine power and load capacity, with low fuel consumption. This makes the product outstanding value for money and also helps to reduce your carbon footprint, reaffirming AUSA's commitment to the environment.

The driver's comfort and safety are key points of the product, so special focus is placed on its stability and the load capacity on the forks.

C 11 M

All-terrain forklift 1,200 kg

Capable of lifting a maximum load of 1,200 kg, this vehicle is small in size and lightweight. This minimises ground erosion and allows it to be used in areas which, by their nature, require a lightweight product with a high load capacity.

Reliable mechanics and easy maintenance thanks to the exclusive design of AUSA's four-speed mechanical transmission.

The side driving position optimises accessibility to the cab and reduces tiredness.

Its low height (2,040 mm and 1,900 without rotating beacon) means that it can access small spaces.

STANDARD EQUIPMENT: Open FOPS cab, seat belt, rear-view mirror, rotating beacon, 2,660 mm duplex mast with side shifter, 1,260 mm fork carriage, 1,000 mm forks and reversing alarm.

C 11 M

Characteristics	 1200	 12.1	 1280	 M-4x2
C 11 M	1200	12.1	1280	M-4x2

Advantages

- The cheapest all-terrain forklift on the market.
- KUBOTA 3-cylinder engine with the lowest fuel consumption on the market which, together with its low maintenance costs, makes it a highly cost-effective product.
- Cheap to transport thanks to its low unladen weight of 2,160 kg and height of 2,040 mm, meaning that it can be easily transported in any lorry.

C 150 H

All-terrain forklift 1,500 kg

Capable of lifting a maximum load of 1,500 kg, it is the all-terrain forklift with the most compact design and the lowest maintenance costs of its class. Especially suitable for handling loads in spaces with a limited height and an uneven terrain, it is available with two types of 2-speed hydrostatic transmission: 4x2 and the exclusive COMPEN® SYSTEM permanent 4x4 traction designed by AUSA. Its high-quality components provide the best return on investment.

STANDARD EQUIPMENT: Tilting open FOPS cab, seat belt, joystick, rear-view mirror, rotating beacon, 2,660 mm duplex mast with side shifter, 1,260 mm fork carriage, 1,000 mm forks and reversing alarm.

C 150 H C 150 Hx4

Characteristics				
C 150 H	1500	18.5	1300	H-4x2
C 150 Hx4	1500	18.5	1300	H-4x4

Advantages

- Compact: 1,300 mm machine width.
- All-terrain: Front wheel with a large diameter and a chassis with high ground clearance (210 mm on the C 150 H and 240 mm on the C 150 Hx4), providing exceptional performance.
- Wide range of masts: maximum lifting height of up to 4,000 mm.

C 200 - 250 - 300 H

All-terrain forklift 2,000 - 2,500 - 3,000 kg

Capable of lifting maximum loads of up to 2,000, 2,500 and 3,000 kg, depending on the model, the C200H, C250H and C300H offer an outstanding balance between manoeuvrability and load capacity.

Available with two types of traction: 4x2 and the exclusive FULLGRIP® SYSTEM 4x4 electro-hydraulic traction with continuous speed control and connectable as required, designed by AUSA.

Its high-quality components provide the best return on investment.

Tilting cab for easy access to components and to reduce downtime. Spacious and with a 360° panoramic view, it is made with an open, semi-closed and closed design, with an efficient heating system.

Full control joystick with built-in reverse drive and all of the hydraulic functions in one place.

Counterweight with a curved design to improve rear visibility.

Slow inching pedal to ensure simple and safe driving, facilitating approach and load-handling operations.

Anti-slip step for quick and safe access.

STANDARD EQUIPMENT: Tilting open FOPS cab, limited-slip differential on the front axle (C 300 H), seat belt, joystick, rear-view mirror, rotating beacon, 3,300 mm duplex mast with side shifter, 1,260 mm fork carriage, 1,200 mm forks and reversing alarm.

C 200 H C 200 Hx4

Characteristics				
C 200 H	2000	36.5	1515	H-4x2
C 200 Hx4	2000	36.5	1515	H-4x4

Advantages

- Compact, with a width of 1,515 mm and 1,775 mm for the wide axle model used for high-lift masts.
- All-terrain: front wheel with a large diameter and a chassis with high ground clearance (220 mm on the C 200 H and 210 mm on the C 200 Hx4), providing exceptional performance.
- Wide range of masts: maximum lifting height of up to 5,400 mm.

C 250 H C 250 Hx4

Characteristics				
C 250 H	2500	36.5	1520	H-4x2
C 250 Hx4	2500	36.5	1520	H-4x4

Advantages

- Compact, with a width of 1,520 mm and 1,780 mm for the wide axle model used for high-lift masts.
- All-terrain: front wheel with a large diameter and a chassis with high ground clearance (250 mm on the C 250 H and 270 mm on the C 250 Hx4), providing exceptional performance.
- Wide range of masts: maximum lifting height of up to 5,400 mm.

C 300 H C 300 Hx4

Characteristics				
C 300 H	3000	36.5	1520	H-4x2
C 300 Hx4	3000	36.5	1520	H-4x4

Advantages

- Compact, with a width of 1,520 mm and 1,780 mm for the wide axle model used for high-lift masts.
- All-terrain: front wheel with a large diameter and a chassis with high ground clearance (270 mm on the C 300 H and 285 mm on the C 300 Hx4), providing exceptional performance.
- Wide range of masts: maximum lifting height of up to 5,400 mm.

C 350 - 500 H

All-terrain forklift 3,500 - 5,000 kg

The 3,500 and 5,000 kg load capacities make them the perfect machines for handling extremely heavy items on tough terrains.

Available with two types of traction: 4x2 and the exclusive FULLGRIP® SYSTEM 4x4 electro-hydraulic traction with continuous speed control and connectable as required, designed by AUSA.

Its high-quality components provide the best return on investment.

STANDARD EQUIPMENT: Tilting open FOPS cab, limited-slip differential on the front axle, seat belt, joystick, rear-view mirror, rotating beacon, 3,300 mm duplex mast (C 350 H), 3,700 mm duplex mast (C 500 H) with side shifter, 1,260 mm fork carriage (C 350 H), 1,660 mm fork carriage (C 500 H), 1,200 mm forks and reversing alarm.

C 350 H C 350 H x4

Characteristics

				
C 350 H	3500	36.5	1790	H-4x2
C 350 Hx4	3500	36.5	1790	H-4x4

Advantages

- Compact, with a width of 1,790 mm and 2,050 mm for the wide axle model used for high-lift masts.
- All-terrain: front wheel with a large diameter and a chassis with high ground clearance (300 mm on the C 350 H and 320 mm on the C 350 Hx4), providing exceptional performance.
- Wide range of masts: maximum lifting height of up to 5,400 mm.

C 500 H C 500 H x4

Characteristics

				
C 500 H	5000	55.4/63*	1987	H-4x2
C 500 Hx4	5000	55.4/63*	1987	H-4x4

Advantages

- Compact, with a width of 1,987 mm.
- All-terrain: front wheel with a large diameter and a chassis with high ground clearance (290 mm), providing exceptional performance.
- Wide range of masts: maximum lifting height of up to 5,450 mm.

AUSA EXCLUSIVE ALL-WHEEL TRACTION SYSTEMS

AUSA Compen® System is a permanent all-wheel traction system which automatically balances the torque between the differential axles.

4X4 COMPEN®

AUSA FullGrip® System is a multi-disc all-wheel traction system, which can be connected electro-hydraulically using the joystick control on the driver's console.
