

DESCRIPTION FOR PART NUMBER 9U-9855

Description:

Cat drive train components must endure incredible torque, high impact loads, and frequent direction and gear changes. Cat designs and manufactures its transmissions and final drive components with these demands in mind. The result is a drive train that lasts longer and works harder over the life of the machine. Cat manifold assemblies provide a durable housing for transmission components in the drive train system of Cat machines.

Attributes:

- Cast iron manifold with dowels and check balls
- Outside Diameter: 605 mm (23.818 in)
- Inside Diameter: 162 mm (6.377 in)
- Width: 71 mm (2.795 in)

Application:

Service component for the transmission planetary group. Consult your owner's manual or contact your local Cat Dealer for more information.

 **Warning:** This product can expose you to chemicals including Lead and lead compounds, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.
